

Jukkasjärvi VildmarksTurer AB

10-day Husky Safari with sled dogs

In the spring of 2012 Jukkasjärvi VildmarksTurer AB will offer a unique scouting tour with sled dogs in the mountains of Swedish Lapland. The tour will start March 28th in our wilderness camp at Lake Väkkärjärvi (15 km north of Jukkasjärvi). The first day will be spent preparing for the tour, this includes checking the equipment, thorough instructions of how to master the sleds and dogs, how to dress and behave during winter conditions, and we will check the tour plan.

The next day we will start the tour, we will drive with the dogs along Torne River for a couple of days heading up to the mountains. The first days are quite easy driving which allows you to get an easy start. On day 4 the driving gets more demanding as we leave the rivers and lakes and the mountain trails start. The rest of the tour will be spent in the region around Kungsleden (The king's trail) and the Kebnekaise mountain range – The highest mountains in Sweden. The tour will end on the 8th of April and the last day we come full circle returning to the kennel in Jukkasjärvi. Under the whole tour we will use our fishing equipment on lakes and rivers.

Through out the whole tour we will spend the nights in cabins/Lávvu/tents and everyone will help out with the daily routines such as taking care of the dogs, getting water, heating the cabins etc. No previous experience is required.
